PROJECT & PROGRAM MANAGEMENT | ANALYTICS & FINANCIAL DECISION-MAKING

Navy veteran and USC MSBA student with experience in technical coordination, financial reporting, data validation, and workflow improvement.

EXPERIENCE

iam8bit | Project Accountant - Financial Analytics | 2026-Present

Prepare North America and EMEA retail analytics and financial reporting using partner data and NetSuite. Define requirements and build reusable reporting workflows.

Ball Aerospace | Radio Frequency Range Technician | August 2017-August 2018

Supported antenna and radar cross-section tests; configured equipment and adapted test conditions with engineers.

U.S. Navy | Electronics Technician Second Class | September 2008-April 2017

Led 23 technicians and supported technical readiness and inspections. Our command received a 98% score, reflecting collective performance. Coordinated repair-parts requirements and supply forecasting.

SELECTED PROJECTS

Sell-Through Studio: Defined partner mappings, regional rules, exception handling, and formatted output for an AI-assisted desktop reporting workflow.

MSBA Compass: Shaped product requirements and directed an AI-assisted prototype; deployed and demonstrated for a USC competition.

ScopeShield: Contributed equally to planning, building, and presenting a freelancer scope-change assistant concept with The Last Prompt competition team.

EDUCATION

USC Marshall School of Business | MS, Business Analytics | Expected December 2027
California State University, Los Angeles | BS, Business Administration, Accounting | December 2025

SKILLS & CREDENTIALS

SQL, Python/pandas/NumPy, Excel, NetSuite; requirements definition, financial reporting, stakeholder coordination, data validation, process improvement.
